

## **Press release**

**November 2021, Laudenbach**

**Globally rising raw material prices make phosphide products more expensive.**

**Increasing raw material costs: Detia Degesch Group adjusts the prices of aluminium and magnesium phosphide products.**

With immediate effect, the Detia Degesch Group is levying surcharges worldwide for its aluminium phosphide and magnesium phosphide products. The reason for this is the massive increase in the costs of raw materials worldwide.

Customers are informed individually about this cost impact on their products.

### **About our company:**

The Detia Degesch Group with headquarters in Laudenbach is a medium-sized, internationally leading corporate group of the chemical industry in the field of manufacturing pest control products for stored product protection.

At six locations worldwide, we employ a workforce of 750 persons; 150 thereof at our Laudenbach location.

Contact person: Ms Heike Lücke-Senocak, phone: +49 (0) 6201 708 553
